NCLR ESCALERA PROGRAM

TAKING STEPS TO SUCCESS

NCLR Escalera Program....Taking Steps to Success, created in 2001 is designed to continue participant's college and career readiness development. The purpose of this 15-month curriculum toolkit is to guide the delivery and instruction of the modules for high school seniors. The curriculum is guided by five core competencies:

- *Career Exploration*
- *Education Attainment*
- *Leadership and Personal Development*
- *Technology and Job-Readiness Training*

For each core competency, lessons consist of workshops, field trips, guest speakers, and parental engagement. With culturally relevant and cohort-based instruction, participants will be prepared to attend college. During their participation, students will complete personal statements, participate in a mock interview, go on college visit, participate in MAUC community events and qualify for the MAUC Spirit of Education Scholarship

MAUC Scholarship Program

Who can participate?

Must be a **High School Senior** from:

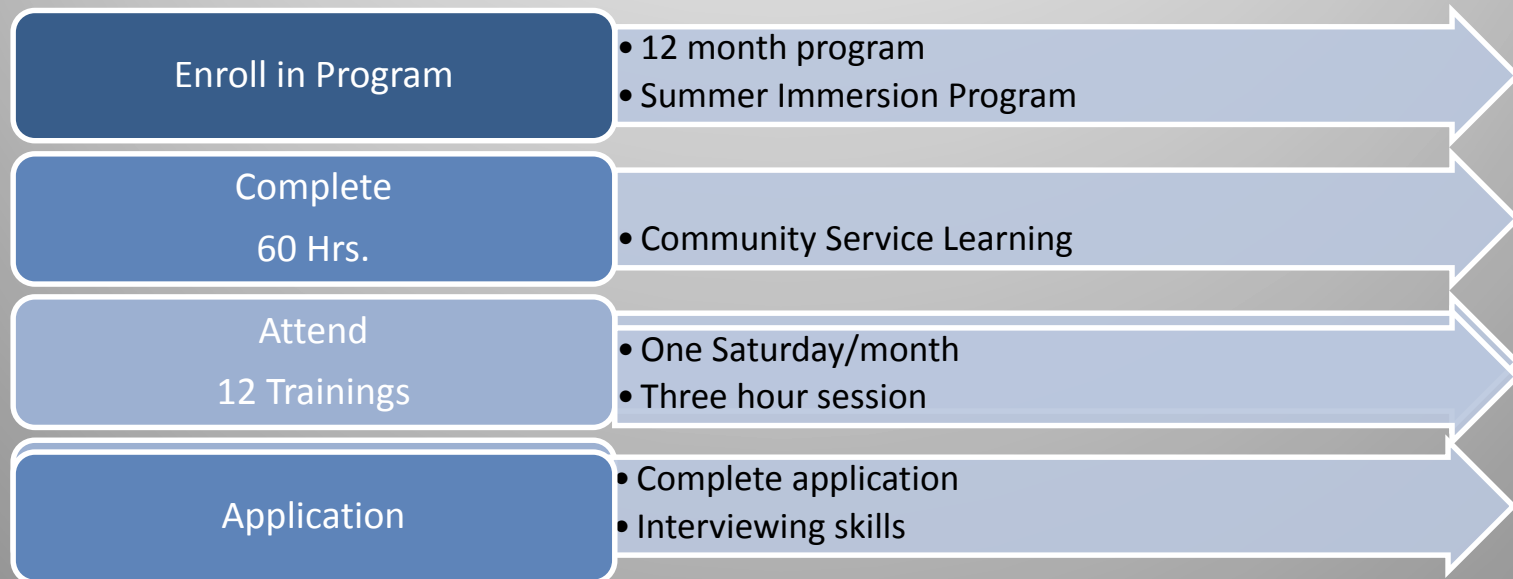

-
